SUSTAINABILITY SNAPSHOT

FLOORING

MATERIALS

We've reused many of the existing Green Tag-certified carpet tiles, and the remainder were made available for other tenants in the building. Our ceramic kitchen tiles emit no VOCs. Our colourful, low-VOC, Interface carpet tiles come from the Urban Retreat, Cubic, Monochrome and On Line ranges. The carpet supplier also runs a take-back programme, accredited by the Ministry for the Environment, ensuring carpet tiles are reused or recycled.
