SUSTAINABILITY SNAPSHOT

EXCEED BENCHMARKS

INNOVATION

We gained an Innovation point for exceeding the IEQ-C benchmark, for the number of plants throughout the office. Two points are awarded for that credit when there is a minimum of 1 x 15cm diameter pot per work setting or 15m2 Net Lettable Area. We have more than four times that number of plants around our office and balcony, removing environmental toxins and improving employee wellbeing.
