SUSTAINABILITY SNAPSHOT

MASS COMMUTING

TRANSPORT

Conveniently located in the heart of Auckland's CBD, the NZGBC office is close to many frequently running mass transport options, including bus, ferry and train services. Visitor bike parks are located at the Elliott St entrance, and there are staff bike parks and end-of-trip facilities within the underground car park. NZGBC does not lease car parks: vehicle emissions are the largest contributor to poor air quality in Auckland, and contribute to increasing greenhouse gas levels.
