SUSTAINABILITY SNAPSHOT

WATER EFFICIENCY

WATER

In a typical tenancy, dishwashers and hot water equipment account for a large proportion of water use. We are reducing our water consumption by choosing efficient products. Our Bosch ActiveWater Dishwasher is certified with a 4.5 Star WELS rating and a 4 Star energy rating. Our Green Tag-certified Billi Quadra Plus 9 is a low energy-consuming dispenser providing instant boiling and chilled drinking water, and hot water to a separate mixer.
